Zach - that would be awesome if you follow-up. I need to get together with you, hopefully next week, to go over what I need (this is for FMC) and what our issues are. Having your help on that site would be great. Thanks!

**Subject:** phosphine monitoring leads

Hey Linda,

On another topic, did you want me to follow up on the phosphine monitoring leads I'm finding? Or do you want to? I just thought it would be good to respond to the helpful folks who are getting back to me on this...

Thanks,  
Zach
